From etching "Ariens" onto our first rototiller in 1933 to stamping our logo onto zero-turn mowers today, putting our name on a machine is a very meaningful moment. It means we believe in that machine, we stand behind it, and we've put everything we've got into it. Because we don't just put our family name on machines, we put our family name on the line.

When Superman debuted seventy-five years ago, it was not merely the beginning for one character, but for an entire genre. The phrase "super hero" had yet to be coined when ACTION COMICS #1 hit newsstands in 1938, but once Superman entered the scene, effortlessly lifting a car above his head on that first iconic cover, the character paved the way for each of the hundreds (if not thousands) of super-powered heroes written since. SUPERMAN: A CELEBRATION OF 75 YEARS gathers a range of stories featuring the first and greatest super hero, highlighting the many roles the Man of Steel has played over the decades. In these celebrated stories, Superman is in turns the Herculean champion, the lonely alien survivor, the super-powered Boy Scout and the soul-searching leader. Over the course of seventy-five years, watch as the character grows from a simple strongman to the beloved international symbol he is today! This Volume Collects: ("Superman, Champion of the Oppressed") / ("War in San Monte") -- ACTION COMICS #1-2 (1938) Writer: Jerry Siegel, Artist: Joe Shuster "How Superman Would End the War" -- Look Magazine (1940) Writer: Jerry Siegel, Artist: Joe Shuster "Man or Superman?" -- SUPERMAN #17 (1942) Writer: Jerry Siegel, Penciller: Joe Shuster,

Since its emergence in early 2020, the COVID-19 crisis has affected every part of the world. Well beyond its health effects, the pandemic has wrought major changes in people's everyday lives as they confront restrictions imposed by physical distancing and consequences such as loss of work, working or learning from home and reduced contact with family and friends. This edited collection covers a diverse range of experiences, practices and representations across international contexts and cultures (UK, Europe, North America, South Africa, Australia and New Zealand). Together, these contributions offer a rich account of COVID society. They provide snapshots of what life was like for people in a variety of situations and locations living through the first months of the novel coronavirus crisis, including discussion not only of health-related experiences but also the impact on family, work, social life and leisure activities. The socio-material dimensions of quotidian practices are highlighted: death rituals, dating apps, online musical performances, fitness and exercise practices, the role of windows, healthcare work, parenting children learning at home, moving in public space as a blind person and many more diverse topics are explored. In doing so, the authors surface the feelings of strangeness and challenges to norms of practice that were part of many people's experiences, highlighting the profound affective responses that accompanied the disruption to usual cultural forms of sociality and ritual in the wake of the COVID outbreak and restrictions on movement. The authors show how social relationships and social institutions were suspended, re-invented or transformed while social differences were brought to the fore. At the macro level, the book includes localised and comparative analyses of political, health system and policy responses to the pandemic, and highlights the differences in

representations and experiences of very different social groups, including people with disabilities, LGBTQI people, Dutch Muslim parents, healthcare workers in France and Australia, young adults living in northern Italy, performing artists and their audiences, exercisers in Australia and New Zealand, the Latin cultures of Spain and Italy, Asian-Americans and older people in Australia. This volume will appeal to undergraduates and postgraduates in sociology, cultural and media studies, medical humanities, anthropology, political science and cultural geography.

James V suffered the fate of many a son of a famous father in being somewhat overshadowed not only by his father James IV but also by his internationally renowned daughter Mary Queen of Scots. But no-one would deny the importance of his reign, embracing as it did the establishment of the Court of Session, the birthpangs of religious dissent, and the growth of royal power to such a remarkable extent that this king could leave his kingdom for nine months in 1536–7 without fear of rebellion. Jamie Cameron concentrates on James V's style of governance and relations with his nobility. He challenges the widely held view of a vindictive and irrational king, motivated largely by greed, who antagonised most of his leading magnates and met his just deserts when they refused to support him in 1542. Offering a different view, he presents us with a rounded picture of a king whose approach to government, in spite of some personal defects, closely resembles that of his supposedly more popular father James IV; and who, like his father, retained impressive magnate support to the end of his reign.
