bestselling adventures of Captain Alatríste, set in a time when the only thing needed to summon hell on earth—or sea—was a Spaniard and his sword. Accompanied by his faithful foster son, Íñigo, Captain Alatríste accepts a job as a mercenary aboard a Spanish galleon. The ship sets sail from Naples on a journey that will take them to some of the most remote—and wretched—outposts of the empire: Morocco, Algeria, and finally to Malta for a stunning and bloody battle on the high seas that will challenge even the battle-hardened Alatríste's resolve. Now seventeen, Íñigo is almost ready to leave Alatríste, his foster father and fellow soldier. But will age and experience bring wisdom, or is he likely to repeat many of his mentor's mistakes?

This particular book is about Marines during the first stage of Operation Iraqi Freedom (OIF). It spans the period from 11 September 2001 to March and April 2003, when the Coalition removed Saddam Hussein from power, and concludes in November 2003 when the Marines left Kuwait to return to their home bases in the United States. While many then believed that the "kinetic" phase of the fighting in Iraq was largely over, as we now know, it was only a prelude to a longer but just as deadly phase of operations where Marines would be redeployed to Iraq in 2004 to combat insurgents (both foreign and domestic) who had filtered back into the country. However, this phase of the fighting would be very different from the one the Marines and U.S. Army had fought in the spring of 2003 in the march up

Editorial: The primary focus of the book is I Marine Expeditionary Force (I MEF)-the run-up to the war in 2002 and early 2003, especially the development of "the plan," with its many changes, the exhaustive rehearsals, and other preparations, and then the conduct of decisive combat operations and the immediate postwar period, mostly under the control of the U.S. Central Command's Coalition Forces Land Component Command. The book also touches upon other Marine activities in the Military Coordination and Liaison Command in northern Iraq and with the British in the south. Nonetheless, the primary focus remains on I Marine Expeditionary Force and the interactions of its constituent elements. Other forthcoming History Division publications will soon offer detailed

published in 1915 and is one of the seminal works of fiction of the twentieth century. The novel is cited as a key influence for many of today's leading authors; as Auden wrote: "Kafka is important to us because his predicament is the predicament of modern man". Traveling salesman, Gregor Samsa, wakes to find himself transformed into a large, monstrous insect-like creature. The cause of Gregor's transformation is never revealed, and as he attempts to adjust to his new condition he becomes a burden to his parents and sister, who are repelled by the horrible, verminous creature Gregor has become. A harrowing, yet strangely comic, meditation on human feelings of inadequacy, guilt, and isolation, *The Metamorphosis* has taken its place as one of the most widely read and
