Benchmarking

Performance

Measurement

In order to accurately assess the performance of service (as in the case of airports) one has to select inputs and outputs that truly represent

Where To Download Data

the underlying processes. Considering the units of measurement, inputs and outputs in the sampled articles are divided into two types, viz., physical and financial.

Performance

Where To Download Data Sources measurement of airports using data envelopment Performance Benchmarking Measurement

In short, many studies perform GRA by using TOPSIS analysis to execute benchmarking performance indicator and ignored the step of clustering of

Where To Download Data

financial indicators [15 - 18]. Hence, the indicators used in FSA and GRA are forty-eight and both analysis in current study used same indicators.
