Edward IV was King of England from 4 March 1461 to 3 October 1470, then again from 11 April 1471 until his death. He was a central figure in the Wars of the Roses, a series of civil wars in England fought between the Yorkist and Lancastrian factions between 1455 and 1487. Edward inherited the Yorkist claim when his father, Richard, Duke of York, died at the Battle of Wakefield in December 1460. After defeating Lancastrian armies at Mortimer's Cross and Towton in early 1461, he deposed King Henry

King Edward VI's journal, 1549-51 - Primary Sources. In the first journal entry below Edward VI records the results of an unsuccessful war in Scotland, civil disturbances in England and the execution of the Protector's brother who was also the king's uncle. It ends with the Protector's fall from power. In the second journal entry Edward discusses a religious dispute with his older half-sister Princess Mary.

Edward IV (1461-83), so often overshadowed by his younger brother and eventual successor Richard III is a controversial figure in his own right. Was he a lazy and licentious lightweight who much preferred his mistresses to his ministers and had little taste for the arduous day-to-day business of government?

role in the Wars of the Roses, the 30-year struggle between the Houses of Lancaster and York for the English throne, and for his relationship with Elizabeth Woodville. Here, historian John Ashdown-Hill re-examines what is known about the private life of the monarch, from his possible bigamy to secret same-sex intimacies, and questions many "facts" traditionally assigned to the first Yorkist king of England.
