INSPECTION AND TESTING FORM - NFPA

Technicians must check waterflow switches, tamper switches, and supervisory devices when servicing the fire alarm system. This typically adds at least 20% to the cost of fire alarm inspection and

Access PDF Fire Alarm

inspection. Other devices take longer to service so they're more expensive than basic devices. These inspections and tests include smoke detector sensitivity, duct detector, vesda, ir detector, and gas detector. Additionally, facilities with elevators require special inspection and

activated.

What is the Fire Alarm
Inspection Process?

Fire alarm inspections
and tests are
necessary to ensure
that all existing alarms
are compliant with
NFPA 72, the
National Fire Alarm
and Signaling Code.
These inspections
