processes, it highlights critical thinking and reinforces its relationship to these processes. Student and professional readings are presented at the start of each chapter and used as the basis for instruction, illustration, and practice. Readings are presented as integrated instructional material, rather than as models or additional practice, allowing students to improve on their own reading and writing skills through a single source. Thematic-based chapters help build continuity, elicit student interest and help students draw on their own prior knowledge. McWhorter's streamlined presentation and flexible approach work in traditional as well as compressed courses. "The 8th edition introduces sweeping

These changes, then, align with current best practices in the teaching of writing which privilege inquiry and critical thinking over rote recall and rule-following." "
