manager, in one way or another, Badowski points out. She discusses first-hand what it's like to have to be a mind reader, to anticipate the future, to plan for the unexpected, and to perform the impossible. With refreshing candor and a hint of attitude, Badowski's advice is unlike any other. She advises us that "Impatience is a virtue," to "Have no shame," and to "Beware the too-quiet office." Having worked in one of the most challenging, high-profile corporate environments anywhere, no one knows more about prioritizing, about making decisions on behalf of your boss, about sifting through a daily barrage of data and information, about multitasking at warp speed, and exhibiting grace under fire. Ultimately, Badowski says, excelling at what you do is about a shared passion for the job. *Managing Up* is an invaluable guide for managing your career and juggling responsibilities with finesse and confidence. It should become a management bible for anyone hoping to get ahead in their profession.
