The Brilliant Deep is the proud recipient of the ALA Notable Children's Books Award, the NSTA-CBC Best STEM Trade Books Award, the Junior Library Guild Selection and the ILA Teacher's Choices. All it takes is one: one coral gamete to start a colony in the ocean, one person to make a difference in the world, one idea to help us heal the earth. The ongoing conservation efforts to save and rebuild the world's coral reefs—with hammer and glue, and grafts of newly grown coral—are the living legacy of environmental scientist Ken Nedimyer, founder of the Coral Restoration Foundation. In telling the story of this sea conservation pioneer and marine life protector, Kate Messner and Matthew Forsythe create a stunning tribute to the wonders of nature and the power of human hope—a power even the smallest readers can access in their quest to aid our extraordinary planet. Recommended by experts for children who are reading independently and transitioning to longer books, The Brilliant Deep is perfect for the following reading categories: • Books for Kids Ages 5-9 • Children's Books for Kindergarten – 3rd Grade • Nonfiction Science Studies Education • Summer Reading
