The need for taxonomic development in the field of human performance; Role of taxonomies in scientific development; Conceptual bases for classifying human task performance; Methodological issues in developing and evaluating classificatory systems; Classificatory systems for describing human tasks: behavior requirements; Classificatory systems for describing human tasks: abilities and task characteristics; Data bases and taxonomic development; The criterion measures approach; The information theoretic approach; The task strategies approach; The ability requirements approach; The task characteristics approach; Taxonomic developments in related areas.

In Effective Supervision, Robert J. Marzano, Tony Frontier, and David Livingston show school and district-level administrators how to set the priorities and support the practices that will help all teachers become expert teachers. Their five-part framework is based on what research tells us about how expertise develops. When these five conditions are attended to in a systematic way, teachers do improve their skills: * A well-articulated knowledge base for teaching * Opportunities for teachers to practice specific strategies or behaviors and to receive feedback * Opportunities for teachers to observe and discuss expertise * Clear criteria for success and help constructing professional growth and development plans * Recognition of the different stages of development progressing toward expertise. The focus is on developing a collegial atmosphere in which teachers can freely share effective practices with each other, observe one another's classrooms, and receive focused feedback on their teaching strategies. The constructive dynamics of this approach always keep in sight the aim of enhancing students' well-being and achievement. As the authors note, "The ultimate criterion for expert performance in the classroom is student achievement. Anything else misses the point."

IFSTA NEW Editions Streamline Driver/Operator Training The new editions of these bestselling IFSTA fire apparatus driver/operator training materials mark a new approach to training driver/operators. Previously, IFSTA published two separate manuals with student and instructor support materials: Pumping Apparatus Driver/Operator Handbook and Aerial Apparatus Driver/Operator Handbook. Fire departments with both types of apparatus needed two manuals, two curriculum and driver/operator trainees needed two exam preps to study for tests. The release of the 3rd edition of these manuals streamlines the IFSTA training resources. The Pumping Apparatus Driver/Operator Handbook, 3rd Edition covers pumping apparatus only, the second book in the pair, Pumping and Aerial Apparatus Driver/Operator Handbook, 3rd Editioncontains the same 15 chapters as the pumping apparatus textbook, plus an additional 5 chapters relevant to aerial apparatus. Personnel on departments that operate both types of apparatus now only need one manual and one curriculum for training. Students only need one exam prep to prepare for testing. If a fire department does not use aerial apparatus, they use the Pumping Apparatus Driver/Operator Handbook, 3rd Edition and omit the aerial sections of the curriculum and exam prep which include all 20 chapters. Chapters 2 and 3 are especially beneficial for all driver/operators: Inspection and Maintenance and Safety and Operating Emergency Vehicles. Pumping Apparatus Driver/Operator Handbook, 3rd edition Skill Sheets now included in the manual Key Terms added The new Fire Apparatus Manufacturer's Association (FAMA) standardized safety signs for fire apparatus are highlighted Hydraulic calculations presented in a logical sequence making teaching and learning easier Customary and metric calculations in one chapter NEW case histories introduce each chapter NFPA® 1002 JPR Correlation Matrix Arabic edition of Pumping Apparatus Driver/ Operator Handbook, 3rd Edition now available. Visithttp://www.afssac.edu.sa/arhome/arabic.pado for ordering instructions.

Hattie McDaniel is best known for her performance as Mammy, the sassy foil to Scarlett O'Hara in Gone with the Wind. Though the role called for yet another wide--grinned, subservient black domestic, McDaniel transformed her character into one who was loyal yet subversive, devoted yet bossy. Her powerful performance would win her the Oscar for Best Supporting Actress and catapult the hopes of Black Hollywood that the entertainment industry -- after decades of stereotypical characters -- was finally ready to write more multidimensional, fully realized roles for blacks. But racism was so entrenched in Hollywood that despite pleas by organizations such as the NAACP and SAG -- and the very examples that Black service men were setting as they fought against Hitler in WWII -- roles for blacks continued to denigrate the African American experience. So rather than see her stature increase in Hollywood, as did other Oscar--winning actresses, Hattie McDaniel, continued to play servants. And rather than see her popularity increase, her audience turned against her as an increasingly politicized black community criticized her and her peers for accepting degrading roles. "I'd rather play a maid than be a maid," Hattie McDaniel answered her critics but her flip response belied a woman who was herself emotionally conflicted about the roles she accepted but who tried to imbue each Mammy character with dignity and nuance.

Provides the foundation for casework practice in Child Protective Services (CPS). Describes the basic stages of the CPS process and the steps necessary to accomplish successfully each stage: intake, initial assessment/investigation, family assessment, case planning, service provision, and evaluation of family progress and case closure. Designed primarily for CPS caseworkers, supervisors, and administrators. Glossary. Bibliography.

We are unavoidably hope-based creatures. Imagine two women given the same boring task to do eight hours a day in the same conditions - but you tell one woman she will be paid GBP15,000 for a year of this work, and you tell the other that she will be paid GBP15 million. Each woman in identical circumstances will be experiencing those circumstances in completely different ways, because what we believe about the future determines how we live in the present. In this dynamic new book, New York pastor and bestselling author Tim Keller explores the biblical understanding of hope. A profound grasp of what we are hopeful for, he argues, can re-energise and transform us personally, can help us face death, can influence our community practices with regard to sex, money and power - and even be applied globally, to renew our culture.
