"HELPI My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

The 5 Voices of Leadership are: 1. the Pioneer: focused of future vision and how to win 2. the Connector: focused on relational networks, communication, collaboration 3. the Creative: focused on future, organizational integrity, social conscience 4. the Guardian: focused on tradition, money, and resources 5. the Nurturer: focused on people, values, relationships"--

"Handwriting is proven to develop fine motor skills and eye-hand connection, strengthening the ability to translate ideas into words. In fact, it equips students to write and read more efficiently than reading and instruction alone. So when it comes time to assess students' yearly progress, it's not just about reading (or math, or science). It's about preparing confident communicators equipped with cross-disciplinary skills that translate directly to demonstrating proficiency on standardized tests. Zaner-Bloser Handwriting has been carefully designed to support the Texas Essential Knowledge and Skills (TEKS) standards for handwriting. References to the TEKS appear throughout the Student and Teacher Editions."--Page v.
