iRefer is the essential radiological investigation guidelines tool from The Royal College of Radiologists (RCR). The eighth edition of the guidelines is available online and in booklet format. The guidelines are also being piloted in a Clinical Decision Support System. The RCR is working with MedCurrent to deliver the pilot projects in the UK and elsewhere.

[About iRefer | The Royal College of Radiologists](#)

iRefer: Making the best use of clinical radiology, 8th edition is a synthesis of evidence-based guidelines from UK and international sources and provides recommendations for everyday use of clinical imaging services.

[iRefer](#)

The current edition, the eight, was published in 2017 and is called iRefer. iRefer provides referring clinicians with evidence-based advice on the best imaging tests or investigations to request. The College is working with a technology partner, MedCurrent, to pilot delivery of iRefer through Clinical Decisions Support software, so that referring clinicians can have access to iRefer as part of their normal workflow.

[iRefer CDS | The Royal College of Radiologists](#)

To facilitate appropriate referrals to radiology departments, The Royal College of Radiologists (RCR) has published RCR iRefer Guidelines: Making the best use of clinical radiology (iRefer) since 1989. iRefer is now widely accepted as a major tool to promote evidence-based imaging. The eighth edition of the guidelines was published in May 2017.

[About iRefer | iRefer](#)

Fellows and members of The Royal College of Radiologists can access the guidelines for free. Access iRefer . NHS Scotland. If you work within NHS Scotland, you can access iRefer for free. Users accessing the guidelines from within the NHS Scotland network should see a green 'Log in automatically' button on the iRefer homepage.

[Accessing iRefer | The Royal College of Radiologists](#)

The iRefer guidelines are a flagship publication of the RCR. Their role in enhancing patient care is more vital than ever in the recovery period from COVID-19. The iRefer guidelines also support appropriate referral into radiology services which is crucial at a time when healthcare resources have been heavily impacted by the pandemic.
