Grade 7. Science.

Interactions within ecosystems. In this cluster, students investigate the complex interactions between organisms and their environment. Students identify biotic and abiotic components of ecosystems, and analyze the cycling of matter that takes place within them. This includes an investigation of the transfer of energy that occurs at various consumer levels, the implications of the loss of producers and consumers to the transfer of energy, and the potential

Moving Ahead in Science and Technology 7

The inclusion of a variety of assessment tests (Structured and Multiple Choice) at the end of each unit, topic and term further solidifies learning and prepares pupils for their Grade 7 examinations from an infancy level. We understand the relevance and importance of technology in modern learning, therefore our Ventures Primary Series is aimed at exposing learners to various technologies and how to apply these technologies in everyday life.
