surprising, complex, and urgent. We ' ve long been taught that the reason we work is primarily for a paycheck. In fact, we ' ve shaped much of the infrastructure of our society to accommodate this belief. Then why are so many people dissatisfied with their work, despite healthy compensation? And why do so many people find immense

Ultimately, Schwartz proves that the root of what drives

us to do good work can rarely be incentivized, and that the cause of bad work is often an attempt to do just that. How did we get to this tangled place? How do we change the way we work?
