In these delightfully candid musings about his life and his cinema, RGV reveals the man behind pioneering Telugu and Hindi films such as Shiva, Rangaela, Satya, Sarkar, Bhoost and Company. Discussing a wide range of subjects, from the influences and circumstances that drew him to films to his cinematic techniques, his successful and unsuccessful films, his Bollywood idols, his relations with the media and the controversies dogging him, Gums & Thighs is as much about RGV's life and philosophy of life as about his films and the Indian film world. Characteristically, he pulls no punches, whether he's talking about movies, women or the media. Even when it comes to his own films, he embraces his failures as much his successes and dissects them with rare honesty and humility. Refreshingly contrarian and politically incorrect, this book discloses a perspective as colourful and larger than life as Indian films. It is not for RGV fans alone but for all those passionate about cinema and the people associated with it.

Packed full of real circuits to build and test, Hands-On Electronics is a unique introduction to analog and digital electronics theory and practice. Ideal both as a college textbook and for self-study, the friendly style, clear illustrations and construction details included in the book encourage rapid and effective learning of analog and digital circuit design theory. All the major topics for a typical one semester course are covered including RC circuits, diodes, transistors, op-amps, oscillators, TTL logic, counters, D/A converters and more. There are also chapters explaining how to use the equipment needed for the examples (oscilloscope, multimeter and breadboard) together with pin-out diagrams and manufacturers' specifications for all the key components referred to in the book.

An expert guide to the answers that will get you hired! What's the surefire way to overcome the stress of a job interview and get the job you want? Be prepared! It isn't enough to be qualified and have a stellar resume—you need to ace the interview as well. The Everything Job Interview Question Book arms you with the best answers to hundreds of questions, including: What do you think this job offers that your last job did not? How would those who worked under you describe you as a supervisor? What do you consider to be your biggest weakness? Have you ever been in a situation where the majority disagrees with you? What did you do? What motivates you to go above and beyond the call of duty? Tell me about something you failed at. What about your current job isn't very rewarding? What does success mean to you? If I asked your current employer to tell us about your accomplishments, what do you think he would say? Based on what you know about this company, how will you contribute to it? Plus, you'll also find help with handling inappropriate questions, advice on questions to ask employers, and tips on handling remote interviews. This valuable resource provides you with expert advice on what to say—and what not to say—giving you the confidence you need to succeed and land the job of your dreams.

Worried about the heat wave—could it be the result of global warming? One of the most topical issues of our time is the subject of the newest Eyewitness Companion: Weather. All you need to know about cloud patterns, violent storms, their causes and repercussions can be found in this one comprehensive but portable volume. This book will explain the real science behind the weather, from how it works to how it's changing.

"In today's marketplace it is critical that you stand out in a crowd." --Eric Winegardener, Vice President, Monster Worldwide In today's tightening job market, the interview is a key stage. But too often in job interviews, candidates freeze and can't find the words they need to make the best impression. Now this clear, concise guide shows the best way to answer all the essential questions, such as: How do you get along with others at work? "I value good support from my coworkers . . ." Where do you expect to be in five years? "Working for this company in a position of responsibility . . ." What motivates you? "I like working on a project all the way through, from conception to . . ." How do you manage your time? "I put aside the start of the day for major projects, and then . . ." How do you solve a problem? "I start by looking at all the possible causes . . ." Also included: A breakdown of phrases by industry, giving you a leg up in some of the best job markets in today's economy. In a competitive market, interview skills are among the most important advantages job seekers can have. This book shows you how to hone those skills for success—one word at a time.

The tools every parent needs to help their teenager find the career of their dreams In Ireland, one in six students drop out of their chosen college course feeling disillusioned about their career path and uncertain about their future. This can deal a major blow to their self-esteem, not to mention the financial blow to parents who are paying the tuition fees. So whether you are a parent of teenagers starting secondary school or preparing to leave, it makes sense to be informed about practical ways to help your child take steps towards a successful future now. Most career advice in Ireland has a rather narrow focus when helping teens decide which college course to choose. Career Coach is different. By looking at the bigger picture – who they are and what they are good at – experienced and inspirational career guidance counsellor Dearbhla Kelly will empower you to help your teenager link their dreams to the reality of the world of work and reach their full potential. "This book will be of great help to parents who are supporting their teens to make sense of who they are and what they want to do with their life." Jennifer McKenzie, Director, National Centre for Guidance in Education (and parent to two college students!)

The only series of step-by-step guides to succeeding in the skilled trades and achieving the American dream. At Your Best as a Plumber is your playbook for learning if a career as a plumber is right for you, progressing from pre-apprentice to journeyman to master plumber, and launching your own small business. Learn: What does a career as a plumber look like? Why should you consider becoming a plumber? How do you become a successful craftsman as a plumber? How much can you make as a plumber? What are your career options once you become a plumber? How long does it take to be successful at each stage in a plumber's career? How and where do you find work as a plumber? What does it take to strike out on your own? What does it take to launch and build a successful small business? At Your Best is the only step-by-step handbook to finding if a career in the trades is right for you, educating yourself and earning the proper certifications, establishing yourself as an excellent apprentice and journeyman in the industry, and moving on to start your own small business in the trades. At each step of the way, your At Your Best playbook provides the information, recommendations, outside resources, and concrete actions needed for taking the next successful step in You, Inc. Whether you are beginning your first career, changing careers, or ready to move up and start your own business as a carpenter, plumber, HVACR tech, or other tradesman, this is the book that will tell you how. There are currently over 6.5 million unfilled jobs in the skilled trades in the US. Despite being well-paying and secure, these jobs remain open because enough qualified candidates with the skills, attitude, and experience required do not exist. Moreover, plenty of opportunity exists for established tradespeople to start their own business, but they have no guidance. The At Your Best Playbook series changes that.

Biography of glass artist Klaus Zimmer, primarily focussed on his work. Includes memoir by the artist and essays on his work by artists and academics. Illustrated throughout with colour and black-and-white photographs. Also released in special edition with slipcase and two original artworks.
